

Down Payment for 2016 Due  
November 30, 2015  
Balance Due March 15, 2016

It's May and welcome back each and every one of you. The cats are also very happy to see you ☺ Notice that I have the down payment information and the final payment information at the top left of this page. That box will appear on every newsletter, so you will always know when payments are due. You will notice that the final, from now on, will be due March 15 of each year. Your timely payments are appreciated. On to the news. . .

### WASHERS & DRYERS

Please do not put anything on top of the washers and dryers – this includes soap, dryer sheets, baskets, etc. They are getting scratched, which means I have to get them painted (or I paint them) before they start to rust!

### GREENEWAY SIGN UP SHEET

Greeneway RV is sending us signup sheets for service. This means you can share the service charge. As of right now, Greeneway is coming every Wednesday—more if needed.

### FOR SALE

If you want to sell something, I can put it on the bulletin board, but you cannot put a "For Sale" sign on the item on your site. EXCEPT for July 11. We are having a rummage sale that day from 11 a.m. to 4 p.m. Of course, at 8 p.m. we are having our Stars and Stripes dance.

### PROPANE

Allied in Mauston fills partial tanks – and only charges you for the partial – not the entire tank. You just have to let them know you have a partially empty tank. They are located just off Hwy 58. Okay here's the hard part: Take 58 to Mauston – DO NOT turn left by Walgreens. Go straight. Go thru the next stoplight and make the second right – They have a NAPA sign on the building. If Jim can find it, so can you ☺ (did I say that out loud???)

### HOT TUB HOURS

Our hot tub is a family hot tub EXCEPT (this year) for Saturday night from 6 p.m. to 10 p.m. We keep the hot tub at 95 degrees. Seasonals are allowed to turn it up to 100 degrees (ask us & we will show you where to change the temp). State law prevents us from having it over 100° when children are present. Therefore, on Saturday evening you may turn it up. Most recommend 102° for comfort with 104° as maximum.

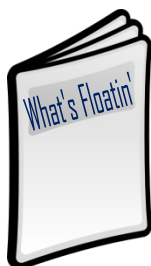

### NECEDAH OLD FASHION DAYS

This summer festival will take place on June 27 in Necedah (naturally) and will be an all day event. More information to come.

### WHAT'S FLOATIN' & JUNEAU COUNTY GUIDE

The What's Floatin' magazine & the Juneau County Guide are here. Both are in the office. What's Floatin' has dates for Castle Rock Lake activities. Juneau County Guide has the dates of activities going on in the county. We also have two guides to Wisconsin Dells. Come to the office to get your copy.

### GRAVEL RASCAL

You probably noticed the gravel is less compacted this last weekend. Jim used the gravel rascal on the entire park. We will continue to do the trouble spots weekly and do the entire park at least once a month to keep the dust down.

### GREASE IN THE SEPTIC TANKS

Miller Septic recently pumped out all the park tanks. He wanted me to stress that you should NOT put grease down your drain. Apparently it is VERY bad for our septic system.

### YOUR WATER SPIGOT

If you don't have an anti-siphon on your water spigot, let us know. The DNR requires it. The anti-siphon makes a spift sound. It prevents backwash in to our wells. We want to keep our very clean and wonderful water, well, clean & wonderful! ☺

### GARBAGE

There are new signs by the garbage. Didn't notice how washed out the other signs were. Please follow their instructions. Properly divided garbage is happy garbage.

### BOCCE BALL

Sid from Site 29 is willing to hold two workshops to teach anyone who wants to learn Bocce Ball. Since this will be part of Game Day this year, you might want to take advantage of the learning sessions: May 23 & June 27 – both at 11 a.m.

### CHILDREN IN CENTER PARK

For your children's safety, please either keep a close eye on your children while they are in the Center Park area, and instruct them what they cannot do—like throwing sand; throwing bocce balls, horseshoes, etc. and climbing onto the roofs of the jungle gym. . .

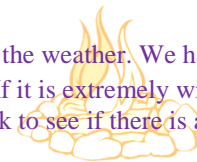

### MAGAZINE RACK

We have a new magazine rack in the office so you can see what we have. Come grab a magazine to read while at the pool or whatever.

### FIRE BANS

Please pay attention to the weather. We have a very dry climate here (thus all the sand ☺). If it is extremely windy, please do not start a campfire – please check to see if there is a fire ban that day. Thanks.

### MINI GOLF

As you can see, the mini golf course has been poured. We need to let it cure for 28 days. Then instead of using felt, we are going to use a specialty mini golf course paint. I did some research and it turns out that the painted version rather than the felt version is preferred by many professional mini-golf players.
